Whole Body Magnetic Resonance Imaging

For the first time, sanrad introduces a superconducting 1.5T MRI with less helium boil off based on a revolutionary Japanese magnet and cold head technology. It is the most state of art superconducting MRI with shortest bore length and large magnet aperture. This MRI is equipped with the latest ultra fast EPI scans and a dedicated Cardiac Scan. This MRI has the lowest power consumption and at the same time industry's best gradient and RF amplifier specifications. This MRI can be installed in minimum space without compromising on efficiency.

CT Scanners

Sanrad is the only company providing refurbished Toshiba Multi-slice CT Scanner systems in India with 300+ successful customers.

Zenith 4500 MRI

The world's first .45 tesla whole body permanent magnet open MRI system. The Permanent MRI with Dynamic Balancing Technology

Chorus GX 1.5T

The new Millennium Frontier in MR Imaging, Whole Body Magnetic Resonance Imager from Sumitomo, japan.
